

PRESERVE THE STRATFORD GREENWAY

STOP THE HONEYBOURNE LINK

The Stratford Greenway Group (SGG) would like to protect the Greenway and Summerton Way, its associated green corridor in Stratford town, from the reopening of a derelict railway between Stratford, Long Marston and Honeybourne.

We wish to conserve them together as a vital multi-use recreational facility, green space and haven for wildlife for the benefit of locals, visitors and future generations.

THIS RAILWAY COULD GO AHEAD BY DEFAULT IF OBJECTIONS AREN'T RAISED NOW

This would damage the environment and disturb wildlife.

Close or divert footpaths and cycle routes.

Create noise, dust and pollution for people living and working along the route.

Cause traffic problems in Stratford, at Milcote Road and around Long Marston during the years of construction and afterwards.

Spoil the enjoyment of the Greenway and Summerton Way for walkers, cyclists, families, dog walkers and horse riders.

YOUR SUPPORT IS VITAL TO PREVENT THIS HAPPENING
